

Hello, My voting name is Walter McGuire, my acting name is MitchellMcGuire. I am on air talent and am opposed to large media conglomerates controlling the public's airwaves. I live in New York City and have a weekend life in Saugerties NY. I know how important it is to me to have local radio and television to listen to and garner information. I do not want CBS, NBC and Fox to be my only sources of information and entertainment, much less the only places I can go to get a job.

Please do come up with a definition of Local Programming and not rely on a few networks to pipe in local news from some outlying state. That would be a flawed system in my opinion.

Yes. define it as locally produced and owned if possible.

I favor as broad a definition as is possible including entertainment as well as local news and community events.

Any local involvement should not just be an excuse to hold on to their license. It should be genuine involvement that is generated by the local station out of genuine concern for the community and the stations place in it.

I have no experience with pay for play except in regard to casting directors and agents offering "classes and meetings" for big bucks to get a chance to meet them and maybe do a scene or play a tape. Bogus BS, but many younger actors fall for it and these sharks take advantage of their positions in the business.

NO Voice Tracking!

Open the playlists to varied talent and stop shoving records down our throats for your own self-interest.

Yes to low power radio. More is good.

Thank you for your interest and involvement. YOU give government a good name.

Walter Mitch McGuire
